Subject: Tools needed for service at TePee Week

Please send to the LEB and the CHAPTERS.
Thanks!Mickie

(The following is the request for service from the OA
from the camp ranger).

We need the OA to help with the unit campsites. We
have 30 sites with pavilions. We need T-111 put on
the gable ends, a gravel walkway built from the road
to each camp and finish grade with gravel around the
pavilions.

OA members could bring battery powered drills,
hammers, saws, step ladders, shovels, rakes and
wheelbarrows. Of course there is always painting and
such for those needing less strenuous service. We
also have signs for campsite names that need to be put
up. This will really help the camp.
